The integrated management system

In June 2012 Terna confirmed its ISO/IEC 27001:2005 certification (obtained in 2011) of the TIMM (Testo di Integrazione del Sistema di Gestione) which is a standard which provides the requisites for an Information Security Management System. In addition, again in 2012, the "Initial Energy Analysis" was performed and the UNI CEI EN ISO 50001: 2011 "Energy Management Systems" is a standard which lays down the requirements for an Energy Management System.
